

TRINITY COLLEGE, JALANDHAR

Date: 15TH JULY 2017

Management Policy for utilization of academic and support facilities (2017-2018)

Facilitating good infrastructure has always been a major focus area of the institute. To this end the management is forthcoming in providing any infrastructure or support needed, to create a conducive environment or to avail technology, tools or any other support the teachers or learners may require. The Principal in conjunction with the management discusses issues relating to the physical infrastructure. The formal proposal is then made by the Finance Committee which is subsequently approved by the Governing Body. Larger issues like purchase of land, building of a wing etc. are discussed at the Trinity Education Society meetings. The ongoing need for adequacy of physical infrastructure is met through need analysis and feedback from teachers and students. Lab requirements are given by technicians, teachers and the concerned staff. Bigger requirements of infrastructure are discussed at the Administrative Council, Academic Council, HOD meetings. The resultant proposal is then taken up by the Finance Committee and subsequently endorsed by the Governing Body.

Objectives –

1. To provide effective teaching learning environment.
2. To cater to the diverse needs of the students through sports and cultural activities.
3. To provide continuous enrichment of the library by acquiring more numbers of latest books/journals of different disciplines from reputed publishing houses and journals on various subjects from premier institutions.
4. To augment E-learning resources and increasing the number of ICT- enabled classrooms.

Planning –

1. Construction of a new building to provide more space and accommodate more students through various new courses.
2. Class rooms with Smart Boards facilities; Wi-Fi connectivity; CCTV surveillance on all floors of college campus.
3. Fully furnished A.C Admission Cell to handle the queries of the students seeking admission in the college.
4. Well Equipped and spacious Placement Cell & Research Cell.
5. The available physical infrastructure will be optimally utilized beyond regular college hours through Commencement of new courses from IGNOU, examination centre for LPU, coaching centre of IELTS, Cricket Academy during and after working hours .
6. Initiating Botanical garden with a good collection of plants on the terrace of fifth floor.

Input –

- Construction of the new building was started in the month of January 2018.
- New smart boards and CCTV's were installed on every floor.
- Admission cell started working in the April 2017.
- One room on the first floor was exclusively given to conduct research activities.

Output / outcome –

- The project of the new building will be completed by December 2018.
- The new building will be fully equipped with Smart Boards facilities; Wi-Fi connectivity; CCTV surveillance on all floors.
- 810 admissions took place through the guidance of admission cell.
- 52 students got placed with the assistance of placement cell.
- 25 Research papers of the faculty were published in various National and International journals.
