From the Director's Desk

Department of Computer Science, Trinity College Jalandhar offers a wide variety of challenging, enjoyable and successful curricular opportunities. The department is constantly striving to stay on the cutting edge of technology. Academic excellence with character and personality development is the ultimate goal of the department. The well chalked out academics and co-curricular programs of the department enable the students to attain their full potential to develop sound work culture. The academic is centered on highly personalised attention and supervision. May the department continue to give their students strong roots and stronger wings to conquer the world.

Fr. Peter Kavumpuram

From the Asst. Director's Desk

The aim of education is to enlighten one's mind so that he can have broad outlook. I am proud to say that Trinity College is constantly scaling new heights with excellent professional training to the students so that they evolve as excellent individuals. I am overwhelmed with joy in hearing that Department of Computer is releasing its newsletter "Tech-Book 2022".

My best wishes with the team for this creative and innovative attempt to showcase the institution's growth. May God bless the stimulus behind the idea to put in black and white the hidden talents of the students. I appreciate the efforts put in to bring out this newsletter very creatively putting together all the activities and endeavours by the staff and students.

Fr. Antony Joseph

From the Principal's Desk

It is my pride to acknowledge this edition of the new bulletin of the department of Computer Science under the able guidance of Asst. Prof Manveet Kaur. The journey laced with beautiful triumphs would not have been possible without you and the team. We also dedicate this coveted honor to our students for displaying exceptional hardwork. I take humble pride in sharing this newsletter with you.

Dr. Ajay Prashar

From the HOD's Desk

The computer science department is a lively and dynamic academic unit boasting a faculty of exceptionally qualified members. The department prioritizes essential holistic elements of computers, including computer networks, operating systems, database systems, computer graphics, and numerous other aspects. We strive to cultivate skilled professionals equipped for real-world work environments. The department initiates efforts to enhance students' soft skills, technical proficiency, and verbal communication, preparing them to compete vigorously in the corporate world. To achieve our goals, the department places particular emphasis on theoretical instruction and hands-on practical work. As a united team, we are committed to elevating the department to new heights of success and glory, preparing for upcoming challenges.
